The services sector, with a growth rate of 11%, continued to be the major contributor to the country's economic growth. The financial markets remained stable throughout the year except for some volatility in the fourth quarter which witnessed sizable swings in the market mood. The BSE Sensex hovered at above 12000 points, except during May, 2006 when it dipped below the 10,000 mark.		
The average inflation in 2006-07, based on the wholesale price index, was higher at 6.73% as against the earlier estimated 5.5%. Liquidity in the system continued to be comfortable		

during the first half of the year, but in the later half the liquidity position tightened and the rate of interest on bank deposits rose from 5.75% to 9.50%. The Non Banking Finance Sector ("NBFC Sector"), however, continued to face fierce competition from the banking industry which has penetrated into almost all the segments of the financial services sector. The working of the Non Banking Financial Companies (NBFCs) also continued to be adversely affected by defaults and absence of proper and speedier recovery laws and procedures, such as those available to banks and financial institutions. In the highly competitive environment in which the NBFCs are presently working, they have no option but to continue streamlining and optimizing their operations to adapt to the emerging scenario.

Outlook, Risks and Concerns

With a GDP growth of 9.20% posted during the year, the Indian economy provides attractive growth opportunities. As the contribution of the services sector to the overall economy is steadily rising, the financial services industry is also poised for steady growth.

The NBFC sector in which your Company operates, has been facing competitive pressure from Banks and Financial Institutions, making it increasingly difficult to generate revenues from financing activities. Accordingly, the Company had cut down its exposure to credit operations consisting of loans, hire purchase etc. No fresh exposures were undertaken in these areas during the year under review. The Company's operations continued to be focused on capital market-related activities and making use of risk hedging tools such as derivatives and other risk neutral instruments. Further, your Company will continue to explore additional opportunities in areas related to its operations.

The Company is exposed to normal industry risks such as credit, interest rate, economic, political, market and operational risks. The Company views risk management as integral to its business for creating and maintaining best practices in business operations and administration. Your Company follows prudent business and risk management practices to combat these challenges.

Opportunities and Threats

The equity markets continued to remain upbeat during the year. The increase in asset values in the real estate sectors and the growth in industry, trade and commerce had led to significant increase in overall credit off-take. Your Company intends to increase its thrust on investments in the fast growing infrastructure sector through joint ventures, corporate advisory services, investment appraisal and syndication. The Company is carefully gauging each opportunity in terms of risks and rewards involved and hopes to tie up successful ventures in the foreseeable future.

Your Company would also endeavor to strengthen its subsidiary and associate companies and make efforts to harness the benefits of group synergy.

Adequacy of Internal Control Systems

The Company has proper and adequate system of internal controls to monitor proper recording of transactions according to policies and procedures laid down by the Company. The Company ensures that the regulatory guidelines are complied with at various levels.

The internal audit reports are regularly monitored by the Audit Committee.

Segment wise Performance

The Company being an NBFC is mainly engaged in finance business. Therefore, there are no separate segments for reporting as per the Accounting Standard AS-17 issued by The Institute of Chartered Accountants of India.

I. SIGNIFICANT ACCOUNTING POLICIES:-
A. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statement have been prepared under the historical cost convention method in accordance with the generally accepted accounting principles and the provisions of the Companies Act, 1956, as adopted consistently by the Company.

B. REVENUE RECOGNITION

- The Company adopts accrual basis of accounting.
- Income from Hire Purchase transactions is calculated following *Sum of Digits* method.
- Installments of Leasing and Hire Purchase Loans are received one month in advance. Thus, the installments collected in the last month of the accounting year include a portion of the income of the next accounting year. However, this portion is not accounted as income received in advance, as the method is consistently followed and the amount involved is not material considering the total receipts of the Company and its "set-off effect" on the accounts.

C. FIXED ASSETS

- Assets under Lease and Hire Purchase are accounted in the books at invoice value and the difference between the invoice price and disbursed amount is accounted as Security Deposits, grouped under Adjustable Deposits (shown under Schedule 3 Unsecured Loans) and the same is adjusted to the respective asset account on the expiry of the term of lease/hire purchase.
- Assets for own use are accounted for in the books at Cost including incidental charges less accumulated depreciation, if any.
- Depreciation is provided as under:
 - On Own Assets:**
On Written Down Value Method as per the rates prescribed under Schedule XIV of the Companies Act, 1956.
 - On Leased Assets:**
100% of the cost of asset is depreciated over the primary lease period applying interest rate implicit in the lease on the outstanding investment on lease to calculate the finance earnings for the period and the difference between the lease rental and finance earnings is charged as depreciation. This method is being consistently followed by the Company and effect of this method is similar to the method recommended by the Institute of Chartered Accountants of India.
- The Company follows a procedure of writing off all capital expenses which do not exceed Rs.1000/- in each case.

D. SHARE - STOCK IN TRADE

- Shares are valued at cost or market value whichever is lower.
- The Company deals/hedges/arbitrages the securities in the capital market and futures and options securities in the derivative segment. Therefore, the purchase and sales figures of both the segments are shown in the financial statements at their gross value.

E. INVESTMENTS

- Investments are classified into long-term investments and current investments.
- Long-term investments are valued at cost. Provision for diminution in value of investment is made scrip-wise to recognize a decline other than temporary in nature.
- Current investments are valued, scrip wise, at cost or market price, whichever is lower.
- The Company follows "FIFO Method" for calculating the cost of each investment sold by the Company for arriving at the profit/loss.

F. DEFERRED REVENUE EXPENDITURE

G. PROVISION FOR RETIREMENT BENEFITS

H. TAXATION

- Provision for Taxation is made on the basis of the taxable profits computed for the current accounting year in accordance with the Income Tax Act, 1961.
- Deferred Tax resulting from timing difference are expected to crystallize in case of deferred tax liabilities with reasonable certainty and in case of deferred tax assets with virtual certainty that there would be adequate future taxable income against which such deferred tax assets can be realized.

VLS SECURITIES LIMITED
DIRECTORS' REPORT

To
The Members of **VLS SECURITIES LIMITED**

Your Directors are pleased to present the 13th Annual Report of your Company together with the Balance Sheet as at 31st March, 2007 and Profit & Loss Account for the year ended on that date.

Financial Results

Activity wise, a Gross Profit of Rs. 15.88 lakhs was earned during the year on account of trading as a client in the derivatives segment. The interest income witnessed marginal increase of Rs.6.00 lakhs while other income declined by 4.98 lakhs.

It is heartening to state that the Company has been able to earn a post tax net profit of Rs.97.452/- after sustaining losses in past few years. Your Directors are hopeful of better performance in the current year.

Operations

Your Company earned brokerage income of Rs. 4.45 lakhs during the year under review, as compared to Rs. 6.64 lakhs earned during the previous year. The Company is making all efforts to increase its retail broking business and measures are being taken to attract prospective clients.

The application for membership in the Future & Option (Derivatives) segment of National Stock Exchange of India Limited (NSE) is under consideration at Securities & Exchange Board of India ("SEBI")

Future Outlook

The Indian Capital Market largely maintained its buoyant performance during the year after setback sustained in first quarter of the period under review. The BSE sensex since then, continued to hover at levels of 12000 and above. With the economy still on the growth path, with reasonable growth rate levels coupled with the continuing strong performance of the corporate sector, the conditions in the stock market are expected to stabilize leading to greater participation by the foreign institutional investors (FIIs) and domestic retail investors.

The primary market continued with moderate activity for most of the year with more companies tapping the market. However, with the possibilities of sensex sustaining its levels and with a good number of public offers in pipeline, the general mood is expected to remain upbeat. The Merchant Banking Division of the Company is exploring possibilities of making inroads with thrust on consultancy and similar fee based services pending renewal of registration as Merchant Banker by SEBI.
